DO YOU KNOW
that 111 companies of this country, large and small—industrials omitted—not including the Northwestern, gained in insurance in force in 1908, $170,476,572? The Northwestern Mutual alone gained $63,013,026. Of the 36,655 new insurers in the Northwestern during the year 1908, about 11,000 or 30 per cent were already members of the Company and increased their insurance. Could anyone want a stronger indication of the confidence and satisfaction felt by the great body of policy holders?

Distinctive Printing:

Tribune-Reporter printing costs no more than the other kind but it is worth more. Our printers make ordinary copy look

Attractive and Eloquent

by choosing and arranging the type well. It is superior supervision that gives a job a distinguished air.

Loose Leaf Devices:

We are sole dealers in the best loose leaf system in the world: The Plew & Motter. Every piece is simple in construction, convenient to use, and is made a little stronger than really seems necessary. See others if you will, but get our prices first.

Carbon Paper:

We are exclusive sellers of Japanese Fibre Carbon Paper, the kind that positively will not smudge and soil one's hands tho it be used like a towel; yet with pencil or typewriter the copies, even unto the third and fourth generations, look like originals. A little money goes a good way in buying it, too.

Legal Blanks:

Tribune Blanks have been the Standard Legal Blanks for more than a quarter of a century. (Ask for Title and Price folder.)
